Leaving the Tourist Information Centre at the Millpool, turn right up a short lane towards Looe Bridge. Cross the bridge and pause and admire the familiar view from the **opening credits** of Beyond Paradise.

Turn right over the bridge into East Looe and along the quay towards the Fish Market. Much of series one was filmed along here including **chase scenes**.

Floella's flat in Episode 5 was above the Fish Market itself. This is the place where the **hit and run** took place in Episode 2.

Martha and Ann were often seen seated at the end of the Fish Market. On screen it appears that they leave **Ten Mile Kitchen** to sit here, however this is a filming trick because Ten Mile Kitchen is located at The Stables Cafe at Port Eliot, 10 miles away!

Turning away from the estuary, discover the back of the Rose Garden, location of **Shipton Abbot Market**. **Humphrey and Esther** also sat in the square, to discuss the arson theory in Episode 5.

To the left of the Rose Garden, is The Guildhall and site of **Shipton Abbot Police Station**. If you look closely over the doorway you can see where the blue police lamp was attached during filming!

Continue along the quay, past The Sail Loft Restaurant where **Humphrey met Archie** for their first drink together, towards Looe RNLI. Make your way to the seafront and East Looe Beach where **Martha joined a yoga class**. To the right is the famous Banjo Pier where **Martha and Ann** often sat.

To the left, is The Pier Cafe and the location of the **infamous fight between Archie and Humphrey**. The **police car** was often seen here.

Retrace your steps along the quay or meander back through the pretty streets of the town and enjoy our shops, cafes and hostelryes.

Across the estuary, in West Looe, you will find **Shipton Abott Fire Station**, first seen in Episode 5.
