

LOOE HERITAGE TRAIL

Explore Looe and discover more about its rich history and interesting heritage. Looe was at one time two separate borough towns – West Looe and East Looe. Each had its own mayor and corporation and sent two members to parliament. It was an important port exporting tin, copper and granite; a safe haven for fishing boats and an important boat building centre, as well as being home to some interesting characters.

To find out more about the places featured on the map and the people who shaped the town, just scan the QR code to go to our website www.visitlooe.co.uk
